CENTRAL VACUUM SYSTEMS

Air King Central Vacuums ®

CENTRAL VACUUM CATALOG

Downloaded from www.Manualslib.com manuals search engine

Introduction

Set yourself apart with the superior benefits built into every Air King Central Vacuum System.

EXTRA VALVE

All Air King central vacuums come with an extra valve instead of a stationary utility valve found on many competing brands. This allows the freedom to place the valve where you need it the most.

HEALTH

Though most conventional vacuums are equipped with air filters, these vacuums exhaust vacuumed air directly in the room being cleaned. This allows fine particles to pass through the filtering system, which are then blown directly back into the room. With a central vacuum system, all of the particles that are vacuumed up are expelled out of the room and trapped by the filter or exhausted out of the home.

POWER AND VALUE

An Air King Central Vacuum is up to five times more powerful than conventional uprights or canister vacuums and will increase the value and salability of your home. Dollar for dollar it is the better choice.

LIFE EXPECTANCY

Air King Central Vacuums have an average life expectancy twice that of uprights or canister vacuums.

QUIET OPERATION

It only makes sense. The power unit is stored in either the basement or a garage away from where you are vacuuming; therefore, the noise is not in the same room.

VALUE, QUALITY, AND SERVICE

Air King has been manufacturing quality products for over 45 years. We strive every day to exceed our customers' expectations for Value, Service and Quality. Our product design team is constantly working to develop new products to meet the changing needs of today's consumer while also keeping our existing products the leader's in the industry. In this way Air King ensures that our customers are always offered the right product at the right price.

PRODUCTS THAT EXCEED YOUR EXPECTATIONS

Air King engineers each product to meet and exceed the needs of our customers. Throughout our entire line of Central Vacuums, the same rigorous quality standards are demanded and exceeded every day. From our Power Units to Tool Kits and more, Air King has the product that meets your installation needs.

THE AIR KING DIFFERENCE

Customer service is a title that everyone in our company shares. From our corporate staff to our nationwide network of manufacturer's representatives, we are dedicated to making sure your questions are addressed and answered quickly and accurately.

CENTRAL VACUUM Air King Central Vacuums SYSTEMS

...more comfortable living for the HOME

Electric Powered Attachment Sets

Air King's Electric Tool Kits include a combination of tools to maximize your cleaning experience.

All of the Air King Electric Power Attachment Sets include a 30 foot crushproof hose, electric power nozzle with aluminum extension wand, 5 piece attachment set, hose hanger, tool caddy and mesh carrying bag.

Models: CVEK3000
CVEK3500

Models CVEK3000, CVEK3500

For homes or offices with extensive areas of wall-to-wall carpeting, the Air King Quiet Zone® Electric Tool Kit provides the tools for fast and effective cleaning results. The Quiet Zone® Electric Tool Kit includes a Quiet Drive Electric Brush with V-Belt technology that features a headlight for vacuuming under furniture, height adjustments to match the brush to the floor surface for more effective cleaning, a reset button to prevent motor burnout in case an object has stopped the brush roll, and a step-on wand release system.

Corded Hose Connection

Direct Hose Connection

Models CVEK1000, CVEK1500

For homes with wall-to-wall carpet or carpets laid directly on hard surfaces the Air King Electric Tool Kit provides the tools for fast and effective cleaning results. The Electric Tool Kit includes a powerful Electric Brush for more effective cleaning and a step-on wand release system.

Model CVEK500

For homes with large areas of carpets the Air King Electric Tool Kit provides the tools for fast and effective cleaning results. The Electric Tool Kit includes a powerful Electric Brush that features a headlight for vacuuming under furniture, height adjustments to match the brush to the floor surface for more effective cleaning and a step-on wand release system.

Air Powered Attachment Sets

Movable carpet shoe keeps the brush at the ideal position relative to the carpet at all times during the sweeping motion. The shoe pivots as the tool moves forward and back for better cleaning and great carpet grooming.

Air King's Air Powered Attachments Sets include a combination of the tools needed to effectively clean your home.

All of the Air King Air Power Attachment Sets include a 30 foot crushproof hose along with a combination of the most commonly used tools.

Model CVK300

For homes that feature hardwood floors with area rugs, the Air King Turbine Tool Kit provides the tools for fast and effective cleaning results. The Turbine Tool Kit includes a turbine brush that features a unique design to maximize power from the available air stream, a built-in air relief valve that allows the head to be adjusted to better match the vacuum and the floor conditions, and a brush pattern that improves cleaning ability by drawing the dirt to the center of the brush where it is drawn away. The crush proof hose included in the Turbine Tool Kit features an ergonomically designed handle, 360° swivel to eliminate kinks in the hose and to reduce effort when cleaning, and a below-the-surface slide switch along with dual contact points on the contact ring provide a high level of reliability.

Model CVK100

For homes that feature mostly hard floors, the Air King Standard Tool Kit provides the tools for effective cleaning results. The Standard Tool Kit includes a multipurpose brush that effectively cleans hard flooring. The Standard Tool Kit also makes an excellent kit for use in garages to clean out car interiors.

The Air King VacPan provides the ultimate in ease and convenience.

Perfect for installations into kitchens, mud rooms, and workshops. The VacPan allows dirt and debris to be swept directly into the floor level inlet. The toeswitch easily activates the power unit automatically. The included trim finish plate gives the VacPan a completed look.

VACPAN

- Toeswitch activates power unit
- Includes trim finish plate
- Available in: White (AKVP3), Almond (AKVP5), and Black (AKVP6)

The Air King Sound Muffler effectively reduces the sound level of your power unit.

Model AKCVM1

- Reduces the noise level of air exiting the power unit
- Easily installs to exhaust outlet on all Air King Central Vacuums

Protect your floors and baseboards with the Air King Hose Sock

Model AKHS30

- Protects floors, baseboards, and corners from the abrasiveness sometimes caused by the hose rubbing against surfaces
- Easily installs on all Air King Central Vacuum Hoses
